*Changing How Schools Screen Volunteers*

Background screening volunteers can be a complex process with concerns over administration, compliance and costs. But if it's worth doing, it's worth doing right. Because BIB has a long history of assisting school districts with screening, we understand these challenges and created a web based, turnkey platform: **Secure Volunteer**.

## Why Secure Volunteer?

- › **Removes paper** with an online platform
- › **Manages** who has been screened and when
- › **Helps ensure compliance** with state and federal regulations
- › **Offers secure ID cards**
- › **Streamlines** the process with automation of notifications, expirations and rescreens
- › **Provides the highest quality screen**—never depending on databases as sole or primary sources
- › **Facilitates the approval process**, which can cut review time by up to 80%
- › **Reduces costs**
- › **Allows volunteers to pay** for their own screen

*BIB offers background screening with integrity. We screen, test and verify the backgrounds of your employees and volunteers. Clients love our responsive service and how we accelerate their speed to hire while reducing their costs. With BIB, you get reliable results and easy technology. We're good at what matters and have been since 1995. BIB is a proud member of AASPA.*

## What is a Secure Volunteer Screen?

Secure Volunteer offers the most reliable screen available— a professional grade screen, which includes:

**Address History Trace (AHT):** This is a report revealing names, DOBs and addresses associated with a specific Social Security number. An AHT should go back at least seven years.

*Why it's important:* An AHT creates a profile of an individual's residence history; this profile determines what jurisdictions should be searched.

**County Searches:** Based on the profile created from the AHT, each jurisdiction/county identified is searched.

*Why it's important:* County courts are the official court of record as most cases are filed and maintained here, meaning the most complete and accurate information is located here.

**Criminal Record Database:** A database search of over 450 million criminal records regularly collected from thousands of sources. All hits are verified at the court of record.

*Why it's important:* Supplementing a county search with databases casts a wider net and helps find more records.

**National Sex Offender Search:** A comprehensive, real-time search of registered sex offender registries in all 50 states plus D.C., Puerto Rico, Guam and Native American Tribal Registries.

*Why it's important:* Searching every available sex offender registry in real-time provides maximum protection from registered sex offenders gaining access to your students.

**AKAs:** can include maiden names, nicknames or aliases.

*Why it's important:* Everyone doesn't always use the same name! Having as many possible names to search increases your chances of finding records.
